

(Cut and paste of email received from Hugh Taylor, 1/23/2015, 2:10 pm)

Hello Mr. Thompson:

In addition to the information provided by Mrs. McDaniel, I wanted you to be aware that the committee will consider an amendment to the proposal next week that would require that the airport rules and regulations (and revisions) be approved by the Council through a ratification process before becoming effective. The amendment also clarifies the review role of the airport advisory commissions relative to the rule adoption. The amendment has been drafted in response to comments received at the last hearing as well as comments that have been received from the public since then. I have attached a draft of the amendment to this email.

If you have any questions, please let me know.

Hugh
