Michael,

One thing to keep in mind, both of the airport advisory bodies will have a Councilmember on them. My belief is that if something controversial comes up, we'll be able to bring it to the Council's attention for more scrutiny. That's certainly my plan with TIW.

Always feel free to let me know if you have any questions, concerns, or advice.

Regards,

Derek M. Young

(And this one from another)

Michael,

Thank you for your efforts to keeping us informed on the positions held by many at the airport. Your expertise and experience is most appreciated!
